

FALL 2017 WAITING LIST RESULTS

The list below gives the enrolment permissions granted to students as a result of the waiting lists for Fall 2017 courses.

You must enrol in the course(s) for which you have been granted permission yourself using York's online enrolment system by the end of Thursday, September 14. If you do not do so, your permission to enrol will expire and your place in the course may be given to someone else.

The list below specifies the course, section and lab number (if applicable) to which you have been granted permission to enrol. For courses with multiple lab sections, every effort was made to put you in one of the lab sections you requested. If the labs you requested were all full, you were given permission to enrol in a lab section that was not full.

If you were not granted access to a course, it was likely for one of the following reasons.

- * You applied for a course or section that is not offered in the fall (winter courses will be handled by a separate waiting list process in late December/early January).
- * You applied for a course without having the prerequisites.
- * The course was full. (This only happened for a few courses.)
- * You were already enrolled in the course you requested.

If you were not granted permission, but would still like to enrol in a course for which you satisfy the prerequisites, you can check with the EECS undergraduate office if there is space available, starting on Tuesday, September 12. (For 1000-level courses, wait until Friday September 15, since most are very full, and spaces will be available only if students who were granted permission do not enrol.)

NAME	PERMISSIONS GRANTED
